Dear Karl:

With only the landscaping and final outlining of traps, greens and fairways remaining, I want to be first to thank you for a job well done.

It is a beautiful designed golf course and will be an exciting layout for any golfer. The irrigation design is functional and will be more economical to operate than either of our present courses. I am happy to report that the drainage problem is not as bad as was first indicated.

My association with your firm has been a pleasant one and we will continue to cooperate in every way possible.

Respectfully,
