Attn. Mr. Robt. Von Hagge
Dear Bob,

I Am enclosing several photo's taken of Carolina Trace this past week. I am sure they will be most interesting and exciting to you. You have convinced me that Carolina Trace is truly great and will become even greater as we are able to progress further.

As co-owner I had to take time out to congratulate you on your accomplishments. As you well know there were a couple of holes namely, 12 and 17 that I have always felt were going to be impossible to create. Now since completed they have proved to be exciting Par 3's.

Your man Jack Miller has provided us with excellent drainage, and his know how and ability to finish grade is above reproach. This combined with your fabulous layout is going to make Carolina Trace the talk of the mid-west. The comments from those who have played the course has ranged from excellent to super.

We will look forward to spring and sincerely hope that Jack can return and complete the project as per your original concept.

Sincerely Yours,

William J. Teepe
