17823 Theiss Mail Route  
Spring, TX 77379

Dear Robert and Mike,

I have been re-elected by the Board of Governors to serve a second term as President of the Club and have been preoccupied with Committee appointments, etc. With this all behind me, I want to express in writing the compliments I gave you both verbally about the renovation of the East Golf Course.

To say the least, you have significantly enhanced the East Golf Course with a vision that blends the best in engineering and artistic design. You have created stunning visual design features and elements throughout the Course.

Your design preserves the underlying character of the East Golf Course, with its undulations and visual elevations – unique to a Florida golf course. That was important to our Membership. Your placement of special features, such as bunkers, is not only strategic to play; it creates picturesque views that make one forget that the course was carved out amidst a residential community.

What I am most impressed with in your design, however, is the resulting playability of the Course. The East Course now offers the much sought after challenges desired by our more skilled players while, at the same, providing golfers of all levels with exceptional playability that enables them to enjoy their golfing experiences.

The East Golf Course at *The Club at Admirals Cove* will serve as a visual tribute to your creativity and attention to detail. It was a pleasure to have worked with you on this important project.

Sincerely

Steve Rockoff, President  
The Club at Admirals Cove, Inc.
